

## Collaborative practice

In order to provide quality education to young people, to interest them in science in the "Year of Supporting Youth and Protecting the Health of the Population" professors and doctoral students of the department "Hydraulics and hydroinformatics", talented students of the circle "Eureka" organized an open workshop. With the purpose of ensuring the implementation of the tasks set out in the Decree No. PF-6079 dated October 5, 2020, on the approval of the Strategy of the President of the Republic of Uzbekistan "Digital Uzbekistan - 2030" and measures for its effective implementation and according to the memorandum with the Department of "Hydraulics and Hydroinformatics" and the Information-Analytical and Resource Center of the Ministry of Water Resources of the Republic of Uzbekistan.

Doctoral students from the department of "Hydraulics and hydroinformatics" L.Samiev, S.Khoshimov, S.Jonqobilov, D.Atakulov, D.Allayorov, S.Melikuziev, master students Sh. Karakhanov, a group of talented students of the circle "Eureka" and the Director of the Information-Analytical and Resource Center of the Ministry of Water Resources of the Republic of Uzbekistan Sh.M. Kurbanov, leading specialist I. Fozilov Suver Doppler S-30 worked together to determine the velocities at points along the flow depth.

The gifted students had areal practice and observed with great interest.
