

## Initiatives by the President in students' life

On the basis of the 5 + 1 program, professors and teachers of the Karshi branch of Tashkent Institute of Irrigation and Agricultural Mechanization Engineers, Baratov Dilshod Doniyarovich, Hayitov Bobur Komilovich and Shonazarov Jonibek Yomgirovich with the first year gifted students organized a one-day introductory internship "Enter Engineering Pte Ltd, UZ GTL" project company on 13.02.2021.

A special bus of Enter Engineering Pte Ltd visited the branch and took the students to UZ GTL. Enter Engineering Pte Ltd was established in collaboration with Kabirov Eldar Fanusovich, Head of Labor Protection and Safety, and Rakhimov Umidbek Urinovich, Chief Specialist for Protection and Safety.

E.F.Kabirov, Head of the Department of Labor Protection and Safety of Enter Engineering Pte Ltd, U.U.Rakhimov, O.Shaybalov, Chief Specialist for Protection and Safety, and told about technical safety and introduced with the construction of the plant, as well as with the working conditions, the opportunities created for the workers.

The students had a lunch with the staff, and the tour continued in the afternoon. Together with Deputy head Siradjev Bekzod Batirovich and other staff visited the company's camp and staff beds, dining kitchens, medical centers, gyms for sports staff special clothing rooms.

This visit, organized under the 5 + 1 program, will serve as an incentive for students to deepen their knowledge in their specialty.
