

Visiting the historical monuments of Samarkand.

Trips to historical places are organized regularly, with the purpose of improving the spiritual, moral and cultural level of students, to ensure their meaningful leisure, to develop student tourism. On April 11, 2021, the curator of the group, trainee teacher of the Department of Hydraulics and Hydroinformatics Atakulov Dinislam Yermaganbet ogli, together with the students of the group 202 of "Water Management and Melioration" direction, visited Samarkand, which has almost 3000 years of history.

Students visited the Khazrati Khizr complex in the center of Samarkand, the residence of the First President of the Republic of Uzbekistan Islam Karimov. To a certain extent, this visit helped the students to awaken in them a sense of national pride and dignity, to further strengthen their respect for our historical and spiritual heritage, customs and traditions.
