

Official visit of professor TIAME to Istanbul Technical University

Professor of the Institute Tursunov Obid is on a business trip at the invitation of a number of foreign universities in order to establish cooperation and consolidate practical results. On April 7, 2021, he visited Istanbul Technical University, one of the leading universities in technology in Turkey, and held an official closed-door meeting with the rector of this university, Professor Ismail Koyunsu.

During the meeting, the parties discussed the establishment and development of bilateral relations between the Istanbul Technical University and the Tashkent Institute of Irrigation and Agricultural Mechanization Engineers, cooperation in intersecting areas and the development of joint projects, it is also planned to study for a master's and doctoral studies under the bilateral 1 + 1 program. The two universities agreed to organize international scientific symposiums and to create conditions for the teaching staff of the TIAME so that they can use the scientific and technical library of the Istanbul Technical University. During the visit, Professor Tursunov Obid got acquainted with the research centers and laboratories of the Istanbul Technical University.
