

IN Students boarding house

May 9 - "Day of Remembrance and Honor" is still continuing throughout our country. Pro-rector on youth affairs Q.Shavazov, dean of "Land management" faculty Sh.Narbaev, dean assistant for work with youth H. Eshova, head of the faculty of youth union Sh.Kadirov and gifted students studying at the faculty and the Ministry of Health of the Republic of Uzbekistan organized a wonderful concert program for the veterans of the war and labor veterans to get information about the elderly and to congratulate them on this holiday.

The songs performed by our talented students and dances performed by our daughters were especially pleasant for our elderly people living in the boarding house. They danced together with our students. There were 158 elderly people in our boarding house, and we were very glad that there were veterans who had a great deal of courage and behind the front.

At the end of the event, our students went in each room and shared flowers and flowers. They talked with heroes of the war, Khusainov Muhammad Zaynigutdinovich and Chinova Valentina Fyodorovna, who showed great courage behind the front.

Our veterans have spoken to the students about the terrible days of the war, praying for the peace of our country, and the wise use of the created conditions, at the best prices, and praying for their contribution to the prosperity of our country. After that, our elderly people, pleased with our visit, expressed their gratitude to us and the head of our organization.

Hurriyat Eshova, Deputy Dean of the Faculty of Youth Affairs of YJU

The press secretary of the Institute, Rakhimboy Jumaniyazov
