

The performance of urgent activities

Planned activities in the framework of the Resolution of the President of the Republic of Uzbekistan dated August 11, 2021 PQ-4801 on urgent measures for the efficient use of water resources and land reclamation in Jizzakh and Syrdarya regions are in the process of systematic and large scale performance.

Contracts were signed with the Tashkent Institute of Irrigation and Agricultural Mechanization Engineers, "Syrdaryosuvqurilishinvest" and "Jizzakhsuvqurilishinvest" on the basis of implementation of the targets set forth in this resolution, study of design estimates for irrigation and reclamation facilities, making recommendations for cost-effective solutions, monitoring of construction and reconstruction processes, make scientifically sound recommendations for solving problems. Professors, researchers, doctoral students, masters and talented students of the institute are participating in this project. Professors and doctoral students of the Department of "Hydraulics and Hydroinformatics" paid another visit to Syrdarya region on September 10-11, 2021, with the purpose of monitoring the construction work at the site, studying the existing problems and shortcomings in the construction process, developing scientifically based conclusions and recommendations on existing problems.

Irrigation networks on the site of the reconstruction of the canal "P-8r-2" in Sayhunabad district of Syrdarya region, Irrigation networks of Mirzabad district D3-10, D3-5-20, "Yur-17-13", "Yur-17-15A", "Yur-17-7", "5A-X-3", "5-U-2-1", "5-U-12" in Sardoba district, "5A-U-7", "5A-U-9-1", "5A-U-9-1-1" were inspected during the visit. The professors of the department gave the contractors theoretical concepts.
