

## Visit to the Center for Innovative Development

A group of talented 1st year students of the Faculty of Land Management, together with V.Akhmadaliev, leader of the group and dean Sh.Narbayev, visited the Center for Innovative Development in order to increase the interest of young people in science and innovative research, to familiarize with the achievements in the field of innovative development in the country. They got acquainted with the activities of centers for robotics, automation and other innovations.
