

Visit to "Tashkent City"

Students of 101 group of "Water Management and Melioration" direction of the Faculty of Hydromelioration visited "Tashkent City" International Business Center on December 12, 2020. During the visit to Tashkent City students got acquainted with the modern city. The construction of modern business centers, offices, residentials, parks and a number of other social facilities on the campus has played an important role in further enhancing the spiritual and educational potential of students. Students were able to obtain information about the following objects: Gardens Residence, Central Plaza, Hyper Partners Center, Nest One, Financial Center, etc.
