

## Defense of Motherland

Our motherland has always been proud of her courageous heroes. Our young men were conscious of their parents and family, and the soil of the country in which they live, to assert their duty to protect the Motherland. The celebration of this holiday expresses respect to people who are protecting our land bravely, respect to the army.

Love, respect and protection of the homeland are the noblest duty of each of us. Protection of Motherland - sacred duty. Every year on the eve of Defenders of the Motherland, our hearts are warmed when not only the military, but also other professionals, working in our country, as well as students, economists, engineers, agronomists and athletes congratulate each other.

Therefore, we congratulate the defenders of the Homeland on this blessed holiday and wish them peace, health and wellbeing. Always do your best to keep our heavenly sky clean forever! I congratulate all with the Day of Motherland Defenders. We hope that you will receive this video, made by the studio 'Iqtidor-film' by the initiative of the leaders of the Institute Youth Union.
