

## "Green Initiative" environmental campaign

Ecology and environmental protection is the duty of each of us. Spring is coming, we can notice it in the southern Kashkadarya region of the republic earlier. These days - the time of landscaping, planting tree seedlings.

The environmental campaign "Green Initiative" is being held with the participation of professors and a group of enterprising students of the Karshi branch of TIAME. During the campaign, flower seedlings, fruit and tree seedlings are being planted to flourish the territory of the branch.

Teachers of the department "General technical sciences" N. Amirkulova and M. Aralova are showing great initiative at the event. Students who actively participated in the action were gratified by the administration and awarded with letters of gratitude. The eco-campaign will last for a week.
