

The gift of nature and society

At the initiative of President Shavkat Mirziyoyev, was organized a creativity school named after the outstanding writer Abdulla Kadiri.

The staff of the institute, visited the school, took part in the celebrations dedicated to the upcoming holiday of Navruz. Navruz Bayram is one of the most ancient holidays on Earth - it symbolizes the beginning of a new life. Translated from Farsi, "Navruz" means "new day". Navruz is a purely national holiday associated with the awakening of nature, the onset of heat and the beginning of agricultural work.
