

Determination of temperament

On March 13, 2020, at the SD 3, the psychologist of the Institute, Mukhamedova Mukhayyo, deputy dean for youth affairs at the Faculty of Land Management Eshova Khurriyat and a nurse of the SD Khaitova Khurshida held an event for the girls of the faculty of land management on the topic "Coronavirus". Nurse Khayitova Khurshida informed about the need for virus prevention. Many questions were asked, and detailed and comprehensive answers were given. At the end of the meeting, the girls asked the psychologist of the institute to conduct psychological testing and training. A psychologist at the institute conducted psychological testing on the topics "Temperature Test", "Associative Test" and "Who Are You?" The meeting participants received the information they needed for themselves and suggested holding such meetings more often.
