

Meeting with a psychologist

Mental health is inherent in human nature. Different problems in their own lives, during their studies, play an important role in overcoming mental experiences. That is why it is useful to have interviews with psychologists. The Chair of Women of the Agricultural mechanization faculty N.A.Khalikova with psychologist of the Institute M.K. Mukhammedova organized a meeting for female students. At this meeting, the psychologist gave the girls fully information they needed and shared their views. The psychologist studied each girl's problems based on psychological tests and expressed her ideas on how to solve them. The psychologist and the chair of woman of the faculty agreed to work in partnership.
