

## Museums are a mirror of our history

The museum is an institution engaged in the collection, study, preservation and display of natural history, material and spiritual monuments, as well as educational and popularization activities. In order to enrich the spiritual world of young people, to educate the younger generation in the spirit of love and devotion to the Fatherland, the role of museums is invaluable.

On October 15, 2013, Rano Kodirova, Chairwoman of the Women's Council of the Faculty of Organization and Management of water resources, and the first-year students of the Faculty visited the Abdulla Oripov Museum at our Institute.
