

First steps towards the institute

✘ It is best for young people to share information about their future dreams and goals. It is of great importance to arise interest in educational institutions they heard or know. Pupils from school №296 located in Uchtepa district of Tashkent city visited the institute to get acquainted with the activities of the institute. Students were introduced to the educational audiences and laboratories of the institute. At the end of the visit, a roundtable was organized and books were presented to the students.
