

Earth Day

Earth is a national wealth, it is our duty to preserve it. It is known that on April 22, 2009, at the 63rd Session of the United Nations General Assembly, it will be celebrated as "22 April - International Earth Day". Annually in the Republic of Uzbekistan events and competitions dedicated to this day are held in higher educational institutions. In this regard, on April 16-17, 2019, an exhibition of photographs and innovative developments and intellectual games competitions will be held at our Institute under the slogan "Earth's national wealth, our preservation is our duty". The event was attended by Vice Rector for Research and Innovation, Ph.D. T.Z.Sultonov opened. The event was attended by representatives of the United Nations Development Program and IWMI - International Water Management Institute, responsible officials from the Davergeodezcadasthre Committee.

Despite the fact that on the first day of the competition, creative, initiative, talented students from each faculty took an active part in their creative work, photography, innovative ideas and intellectual advancement. This selection will continue tomorrow. Good luck to all the participants. Indeed, instead of the information, we want to emphasize it. At the qualifying stage of the competition "Tests of the mind-2019" held at TSEU today, the talented, initiative "Irrigation team" of our institute took the first place and won a ticket to the city stage. We wish you good luck in the next stages of the team.

Vice-Dean of the Faculty of "Earth Resources Management" H. Eshova

The press secretary of the Institute, Rakhimboy Jumaniyazov
