

Theory in practice

In order to ensure the implementation of tasks specified in the Presidential Decree № PP-4801 of August 11, 2020 "On urgent measures for effective use of water resources and improvement of land reclamation in Jizzakh and Syrdarya regions" and the Ministry of Higher and Secondary Special Education of Uzbekistan № 424 of August 18, 2020, 3rd year students of mechanization of irrigation works and hydraulic engineering construction together with the teaching staff came on June 14, 2021. For three days, students participate in joint water projects and improve their skills under the guidance of experts.
