

## Book is our best friend

Over the past short period of time a lot of work has been done to promote various types of traditional and educational activities in order to improve the state youth policy, protect the rights and interests of young people, create the necessary conditions for its development. Under the leadership of Z.F. Beknazarova, Chairperson of the Council for Women's Affairs of the Faculty of "Hydromelioration" in student dormitory No. 4 held an event to raise the morale of young people and the meaningful organization of their leisure time. At the event, 4 out of 5 important initiatives were implemented among female students with the aim of popularizing reading, promoting the culture of reading.

Reading performances were held among female students. Council members presented interesting books to active girls. A book is an instrument of thought, a key to treasures, a source of mind. There is no more powerful tool for educating the younger generation in the spirit of national values than a book.
