

Discussion about the Address of the President

The address of the President of the Republic of Uzbekistan to the Oliy Majlis is the most important event in the political life of our country. The event, which has become a tradition since 2017, will announce the main indicators for the coming year, goals and objectives for the new year. The Address of the President of the Republic of Uzbekistan Shavkat Mirziyoyev to the Oliy Majlis on the most important priorities for 2021 is currently being studied by all our compatriots and students. On January 15 of this year, all courses at the Faculty of Land Management were held to promote the President's address. Mamadaminova Bakhtigul Abdupattaevna, a senior lecturer at the Department of Humanities, presented the main content of the President's address to our students on the basis of the schedule approved by the Vice-Rector for Youth Affairs R. Choriev.

They emphasized that it was focused on providing students with great opportunities, as well as a focus on their learning, aspirations and meaningful leisure. The students were also told that 2021 is named as the Year of Youth Support and Public Health, and the address highlighted the dangers facing the world today. At a time when young people are given great opportunities, it was said that students should use these opportunities effectively, use libraries and practice regularly. We need to give our young people a decent education and realize their aspirations for science. To this end, we need to develop the system of pre-school education, radically improve the material and technical base of secondary and higher education, the quality of scientific and educational processes. Strengthening the health of our people, deciding on a healthy lifestyle is a vital issue for us. If we ensure peace and health, we will achieve everything else. The students were given the necessary information, saying that it is not an exaggeration to say that the Address is a guide to life, a guide to development. These lectures were very interesting and full of questions and answers. From this roundtable, students received answers to all their questions.
