

Defenders of the Fatherland

Defender of the Fatherland Day has become a national holiday. Our peaceful life is being reliably protected by our Armed Forces today, and it is worthwhile to honor and glorify our young men who are faithfully carrying out such a responsible duty and who are committed to the stability of our development. The people are certainly able to build their great future by glorifying the Motherland, the people, our ancestors, our great scholars, bringing up the youth in the spirit of military patriotism, and forming them into mature, physically healthy, educated and selfless children. One of the most important tasks today is to instill in the hearts of everyone living in our country a sense of homeland, to become a true fan of our motherland, one of the places of material and spiritual culture for thousands of years. As long as we have such selfless children, our confidence in the future will continue to grow. As our first President emphasized, today we have every reason to say that today Uzbekistan has a modern, compact and mobile, well-armed national army capable of reliably protecting the stability and security of our country, the inviolability of our borders and the peace and tranquility of our people. ». They informed our students. After that, our students congratulated our guest, professors and students who took part in the event. We also congratulate our servicemen on this blessed holiday and wish them family peace and health. May your life always be full of honor and victories.
