

## "Geodetic work in land management" academic training with specialists-geodesists

According to the order of the rector of the institute No.158 / t dated 02.26.2021, students of the Faculty of Land Management of TIIAME are having academic training on the subject "Geodetic work in land management." On March 16, 2021, a group of specialists of the companies "ARTEM STROY" and "DECCOVER INVEST" organized a MASTER-CLASS on the topic "Geodesy in construction ", in order to increase the level of theoretical knowledge, improve the practical skills and abilities of students of group 306 on working with modern geodetic measuring instruments in the field.

The master class was attended by the head of the Department of Geodesy and Geoinformatics docent PhD R. Oimatov and head of practice 306 group docent, PhD. S. Abdurakhmonov. The chief surveyor of the "ARTEM STROY" company N. Khattabov and an experienced surveyor of the "DECCOVER INVEST" company V. Rakhmatkhudzhaev told the students about the geodetic work carried out during the construction of buildings and roads. Students received answers to their questions about working with modern geodetic instruments.
