

## End of Scientific Olympiad

On May, 14th in our institute, 3-4- rounds of the 2nd round of the Republican Subject Olympiad on "Hydroelectric power supply in agriculture" were held in the test and oral form. Each subject was evaluated within the overall score based on the nature of the subject, and the winners were identified.

According to the results, the faculty of "Water management and land improvement" of the Hydromelioration faculty of the Institute was awarded the 4th grade by the jury of the 403th group Abdukarimov Abror . 2nd place was taken by the 4-year-student of the 54 th group Abdulazizov Maqsudbek in the direction of "Water management and land improvement" of Andijan branch of TSAU. 3rd place was awarded to Adilbekov Boburbek, student of group 161 of Urgench State University "Soil Science".

Awarding of the Olympics winners, the closing of the Olympiad and the observation of the participants were held at a high level.
