

Purity is the key to health

June 17, 2021 the Institute psychologist M. Mukhamedova held an event with the students of hydromelioration and energy supply of agriculture and water, living in the student dormitory № 4. The theme of the event was "A woman is a keeper of the home". Real life examples and real stories were given. To determine the condition of the dormitory and the social environment, students were interviewed. The educator of the student dormitory N. Iskulova also took an active part in the event.
