

## "Water treatment is an effective biotechnology"

It is interesting to note that the 1st year doctoral student Alimova Madinakhon published the article "Water purification is an effective biotechnology" in Yangi Uzbekistan newspaper. Let us remind that Alimova Madinakhon, a first-year post-graduate student of Tashkent Institute of Irrigation and Agricultural Mechanization Engineers with a degree in Environmental Protection and Rational Use of Natural Resources. Let's share the full article below.
