

## Attitudes of the younger generation to science

The current year was announced by the President Sh.Mirziyoev as the year of science, enlightenment and digital economy development. Accordingly, On February 14, 2020, the Geostars team and the Office of Talented Students' Scientific Workshop conducted a master class on the Secrets of Writing Articles at the Faculty of Land Management.

Speaker Dilmurod Akbarov provided information on what to pay attention when writing an article for students who are just about to begin their research. Students received answers to their questions. We would like to express our gratitude to the staff of the Department for the organization of scientific work of gifted students, who helped us to organize a master class.

LM Faculty Youth Press Secretary Sh.Khamidullaev
