

Integration of science, education, and production

In order to ensure the implementation of tasks specified in the Decree of the President of the Republic of Uzbekistan "On measures for radical improvement of the training system with higher education in Tashkent Institute of Irrigation and Agricultural Mechanization Engineers" No. PP-3702 dated 08.05. 2018 and in the Decree of the President of the Republic of Uzbekistan "About the approval of the Concept of development of higher education system of the Republic of Uzbekistan till 2030" №UP-5847 from 08.10.2019, at the faculty of hydraulic engineering construction a seminar on discussion and improvement of disciplines and training programs with participation of leading specialists of organizations and enterprises of the industry was conducted. During the discussion, proposals were made for the inclusion of new disciplines in the curricula based on the development of science and current production requirements.
