

## A visit to the science and education center

On April 19, 2021, students of the 1st year of Master degree program "Land reclamation and irrigated agriculture" and "Water-saving irrigation technologies" visited the Scientific and Training Center of the Institute located in Urta-Chirchik district of Tashkent province. Under the guidance of the Department Head, Professor Isayev S.H., they were acquainted with the conditions of the scientific-educational center.
