

A pleasant relaxation fullfils hard work of people

It is worth mentioning that every month, the staff of Tashkent Institute of Irrigation and Agricultural Mechanization Engineers organizes different trips to the theatre, where the staff, professors and teachers and students is invited. This includes not only relaxation, but also spiritual and cultural way of having a rest in order to get spirituality and connection with the community. Undeniably, it will positively influence on the future work.

This time the social event was attended by the chairman of the women's advisory council of the institute Z. K.Ismailova, women of TIAME from different departments, professors and employees of the institute and students, as well as .

It was great to spend time at the theater and have a great time by watching Uzbek performance. Participants were glad for visiting the theatre and expressed their gratitude to the organizers. Women were happy to use the existing opportunities provided by the authority, first of all, it helps us to be more friendly with all women in faculties and departments. It was a reason for female gender just to have a good rest after the busy work, after caring family and children. At the same time, I believe that such opportunities will give us strength and courage in our future activities.
