

Knowledge is alongside with geniuses

Traditional XVIII - young scientists, masters and gifted students' scientific-practical conference on "Modern Problems of Agriculture and Water Management" started its work. The 9th affiliate of the conference, which has been operating under the name of Mathematical modeling and application of information technologies in water management, also has the B-214 auditorium in the program. Chairmen: Khudayarov B.: dots. Mirzaev S., Secretary: senior lecturer K.Karimova continues to be in good spirits.

All participants presented their reports in the form of presentations, and present the answers to the quiz questions through the board. It can be seen that scientists, masters and gifted students have a high degree of interest in their academic studies.

R.Jumaniyozov, the press secretary of the institute
