

Visit to the Victory Park and the Museum of Glory

Faculty of Hydromelioration "Hydrology" (hydrology of rivers and reservoirs) 1-stage students of group 109, jointly with group leader G.U.Jumabaeva visited the Victory Park and the Museum of Glory on January 18, 2021. The museum depicts the great contribution of the people of Uzbekistan to the victory in World War II, their courage on the basis of historical facts and events, using modern technologies and interactive methods. As students witnessed these processes, their love for the Motherland increased. The purpose of this is to educate our students in the spirit of high respect and attention to these qualities of courage, kindness and humanity of our people. During the visit, the students addressed their questions to the museum staff and received clear answers to their questions.
