

## International Winter School – 2019

✘ A group of students of the Tashkent Institute of Irrigation and Agricultural Mechanization Engineers have been invited to the Kazakh National Agrarian University in Almaty, Kazakhstan, to participate in the International Winter School-2019, including 9 bachelors, 4 masters, 2 basic doctorates and one assistant.

The delegation of students of the Tashkent Institute of International Relations received a worthy reception in Almaty city of the Republic of Kazakhstan. The opening ceremony of the International winter school - 2019 took place at the Kazakh National Agrarian University. The rector of the Kazakh National Agrarian University, Espelov Tlektez Isabuy ugli, opened this international winter school.

The International Winter School-2019 provides masters and students with state professors and lecturers from the USA, Poland, Russia, Turkey, Spain, Sweden, Italy, South Korea, Pakistan, Finland, the Netherlands, Czech Republic, Serbia, undergraduate courses. Students who took an active part in the opening ceremony were given certificates. It should be noted that this year's Winter School is attended by about 30 participants from Uzbekistan.

Moreover, on February 13. on the 3rd day of the International Winter School-2019, the students of TIAME and from Kyrgyzstan and Kazakhstan visited the Scientific Production Center of Agricultural Engineering in the early morning. Students of the Institute met with the General Director of "Scientific Production Center of Agricultural Engineering", got acquainted with the conditions created in the company, information and concepts on the work done. Students of TIAME received answers to their questions and receive necessary information.

The students of TIAME made a delicious palov for their Kazakh and Kirgiz friends. In the 1st dormitory the concert named "Friendship of Nations" was held. The traditions and customs of these three nations were presented in the concert.

The concert was opened with the Kazakh national art. The Students of TIAME expressed their gratitude to the organizers of the International Winter School-2019 on behalf of our Institute and personally, on behalf of the rector, handed souvenirs. The Belarusian professor regularly delivered lectures, scientific works, and master classes for the students of TIAME.

Under the initiative of young scientists of Kazakh National Agrarian University, the first international forum of the young scientists agro-industrial complex of the United Nations was organized within the framework of the Year of Youth. The purpose of the Forum is to unite and develop the creative activity of young scientists to address the pressing problems of modern agricultural science and agro-industry in Kazakhstan.

Start-up projects in the fields of water resources management, green economy, veterinary medicine, innovative technologies and agricultural machinery, natural resources management, agro-innovation, youth initiatives to demonstrate research and development outcomes, agro-tourism, workshops within the framework of the Forum will allow to exchange experience and to form professionalism.
