

# Congratulatory speech of the rector of the Institute Umurzakov Uktam Paradaevich at the event dedicated to International Women's Day

Hello dear women, sisters, girls!

Spring has come to our beautiful country. We greet spring with one of its most wonderful holidays - International Women's Day.

On these joyful days, on the eve of International Women's Day, I am pleased to meet with you and sincerely congratulate you on the holiday.

Dear women, sisters, girls! On behalf of the staff of the Institute, I sincerely congratulate you on your first spring holiday.

You decorate our team as delicate and elegant flowers.

You are the light of the fire of culture in our society.

You unite society and our families, give them a blessing and fill our homes with the light of love, tenderness and kindness.

Indeed, the role of women in the family is irreplaceable.

Women are the most beautiful half of humanity. Because behind all our successes and discoveries there is always a woman: mother, wife, girlfriend, mentor. We are inspired by your words of support and the right advice.

I bow to you for making this amazing and bright world even more beautiful!

Honoring a mother is a noble quality that is highly valued by our people.

In the East, a woman is compared to an angel. Because angels are the purest creations created by Allah.

Tumaris, Bibihonym, Gulbadanbegima, Zebuniso, Nodira, Uvaysi, Barbara Atina and other women became famous for their courage, intelligence, tenderness and grace in the great history of our nation.

Women make up 37% of the staff of our institute. Among them are 11 doctors of sciences and professors, 33 candidates of sciences and associate professors, more than 120 experienced teachers.

We appreciate your invaluable role in creating a stable spiritual environment in our institute.

We are always ready to create for you all the necessary conditions for a full-fledged scientific and pedagogical activity.

We are sincerely grateful to you for what you are, for decorating our lives with your beauty, femininity, and sensitivity, making this world a better and brighter place.

Happy holiday to you, dear women!
