

Practical training in Tashkent Water Supply LLC

Students of group 306 of the educational direction "engineering systems of water supply" of the faculty "hydromelioration" under the guidance of Associate Professor Abdukodirova Malohat conducted practical training on the subject "drinking water supply" in LLC "Uzsuvtauminot" in Tashkent. In accordance with the Decree of the President of the Republic of Uzbekistan from October 8, 2019 № 5847 in order to implement the 5+1 system in higher education institutions and improve the integration of the educational process with production in this company created a branch of the department, constantly held practical classes.

During each practical session, in addition to the faculty, we will be accompanied by an experienced employee, attached by the joint-stock company, who will try to convey their knowledge, skills and abilities to the students.
