

Competition is a pleasure

On May 18, the competition on the football field of our institute was held intensively among students of correspondence education. You can say that with the Department of Physical Culture and Sports, you do not want to be the winner of the "Month of Sport" in this game. To do this, teamwork requires teamwork, cohesion, and experiences. Then there is a guarantee that victory will be achieved.

The following nine teams participated in the match.

1. 101 groups - direction of water management and land reclamation;
2. 102 groups - direction of water management and land reclamation;
3. 104 - direction of the direction of mechanization of agriculture;
4. 105-group - direction of mechanization of agriculture;
5. 107 group - direction of mechanization of water management and land improvement;
6. Group 108 - The direction of mechanization of water management and land reclamation;
7. 114 group - Educational direction of automation and management of technological processes;
8. 116 groups - direction of accounting and audit education;
9. 118 group - directions of hydropower facilities irrigation systems.

In the finals participated 104 groups - Mechanization of Agriculture and 116 groups of Accounting and Audit. As a result, with the score of 2-1, 116 students - students of accounting and auditing education became winners.

The teams that took place 1-2-3 on the result of the game were awarded with medals, trophies and memorable prizes. All active teams were awarded with honorary titles of the rector of the institute.

These football games, which were held among the students of correspondence education, once again proved that they left a great impression on the students and encouraged the sports youth to be friendly.
