

We won again

Man's cheerful and intelligent life makes his life meaningful and enjoyable. The realization of this goal can be felt more deeply in intellectual and entertaining programs.

On May 16, the selection stage of the "Cheerful and resourceful" contest took place. Students from 5 educational institutions attended the event. Among them are the Tashkent Institute of Pharmacy, the Tashkent Institute of Oriental Studies, Olmaliq branch of the Tashkent State Technical University and the Tashkent City Council of the Youth Union, where the youth team of our institute competed.

It is proud to say that the team of "TARGIBOT" team of our institute took 1st place and went to the next stage. We hope the "propagandists" will no longer overcome the flag and wish them good luck.

The press secretary of the Institute, Rakhimboy Jumaniyazov
