

The dormitory of students was observed by professor-teachers

On September 20, 2021, the heads of different departments, professor-teachers in the leadership of the dean faculty "Organization and management of water resources" Dr. R. Khakimov visited the 3rd student hostel of the institute. It is clear to everyone that Mondays - the day of the visit of Dean of "Faculty of Organization and Management of Water Resources", professors and teachers of the Faculty. During the visit of the dean of the faculty, there was held individual conversations with students.  

Housing conditions of students were studied, their problems were also considered. The visits to the rooms, the cleanliness of the room, the conditions were checked. The state of adaptation of freshmen to the social life of the institute was also analyzed with the help of the teacher A. Khayitova. Students expressed their special offers to the dean of the faculty. Heads of departments interviewed students and gave their recommendations on how to use the spare time in the better way. Such work will be a constant focus of the faculty, and such visits will be continued in the coming weeks.
