

## My favourite profession

October 18, 2019 at the initiative of the assistant of the department of Hydrology and Hydrogeology S.R. Mansurov TIIMAME visited students of grades 10-11 of school No. 31 of the Zangiata district of Tashkent city under the guidance of school teacher R. Eshkobilov. During the visit, students got acquainted with the conditions created in the institute, received information about the history of the institute, educational buildings, libraries and laboratories. Assistants of the Department of Hydrology and Hydrogeology S.R.Mansurov and G.U. Djumabaeva answered all the students' questions of interest. Students enjoyed visiting the institute. On the one hand, the visit of school students to the institute helps to expand their knowledge and skills, on the other hand, interest in our field. As a result, they have a desire to study at our institute and become good specialists in the field of irrigation and mechanization of agriculture.

Information of the assistant of the Department of Hydrology and Hydrogeology S.R.Mansurov.

Press Secretary of the institute Rakhimboy Djumaniyazov
