

## Prestigious International Conference has ended

It is well known that on October 18-19, 2018, the significance of Russian President Vladimir Putin's state visit to the capital of the Republic is being realized. At that time, the "New Employees in the Economy" educational forum was held with the participation of rectors of 140 leading universities of the two countries. It is true that this is a criterion for cooperation between scientists in both countries, in the scope of extensive scientific project and practical and theoretical work.

At the moment, agreements have been signed between more than 130 higher education institutions of both countries in the field of training highly qualified specialists and cooperation in research.

Specific prospects and agreements were signed within the Memorandum of Cooperation, signed between the Tashkent Institute of Irrigation and Agricultural Mechanization Engineers and the Moscow State University of Civil Engineering.

According to Practical Measures for Implementation of Agreements signed within the Uzbek-Russian Educational Forum approved by Adviser to the President of the Republic of Uzbekistan A.Abduvakhitov and Deputy Prime Minister of the Republic of Uzbekistan A.Abduhakimov on October 22, 2018 (Road Map), on April 18-21 of the current year, at the Tashkent Institute of Irrigation and Agricultural Mechanization Engineers, jointly with the Moscow State University of Civil Engineering and SC "Gidroyekt" The XXII International Scientific Conference on the theme "Building the Formation of Living Environment" (FORM-2019) has been completed in six days after the four-day intensive process.

This international conference has gained momentum thanks to its popularity and relevance to secular experiences and traditions in construction, science and education. Especially at the youth innovation seminar, the scientific potential of young researchers and innovation potential were evident.

At the end of the conference, the rector of the Institute, Professor Umurzakov Uktam Pardaeovich welcomed the foreign guests who visited the capital of Uzbekistan and participated in the international conference organized jointly with the Institute.

Then Andrey Juravlev, a professor at the Moscow State University of Civil Engineering, and Adamsevich Aleksei Olegovich, head of the Scientific Policy Department of the same institution, thanked the staff of the Institute for the organization and hospitality. Scientists who have been present at their interesting, scientifically-provocative, well-timed and up-to-date lectures, as well as young researchers received diplomas, honorary titles and memorable gifts.

Foreign guests have expressed their gratitude and sincere wishes to all organizers in connection with the international conference. They kindly pointed out that they were truly influenced by the Uzbek culture and hospitality within this period.

R.Jumaniyozov, the press secretary of the institute
