

first-institutional stage of the Republican Subject Olympiad

In order to ensure the implementation of priority tasks defined in the Presidential Decree of May 3, 2019 № PP-4306 "on measures to identify talented young people and organize a smooth system of training highly qualified personnel", I (institute) stage of the national subject Olympiad on the subject "Electrical Engineering" took place among 3rd and 4th year students on April 13-14 of this year.

According to the results, the winners were given memorable gifts and certificates of merit. Mengnorov Sunnat, a student of group 401 of the Faculty of KCCI, who collected the highest number of points according to the results of the I stage, was recognized as the winner and received the right to participate in the II stage of the Republican Subject Olympiad.
