

Online seminar on the organization of research work

Advice and guidance from mentors regarding the value of science and its role in society are always important for the younger generation. On August 21, 2020, at 11.00, an online seminar was held for the teaching staff, master's students of the Tashkent Institute of Irrigation and Agricultural Mechanization Engineers. Doctor of Technical Sciences, Academician Mirziyod Mirsaidov held a seminar on the topic "Dialogue on the implementation, conduct, and organization of research work."

Academician Mirziyod Mirsaidov made a report and presentation. He spoke about the changes expected in the field of education, about the organization of effective research work, methods, and techniques used in the process of research work. The reporter asked questions to which satisfactory answers received. The online seminar was attended by 138 listeners. Vice-rector for youth affairs R. Choriev, vice-rector for science and innovation T. Sultanov, and head of the magistracy department A. Yangiev spoke about the organization of scientific, spiritual work and educational process in the context of a pandemic.
