

SCIENTIFIC-APPLICATION MEETING

"It can be seen from the attitude of any country, system and system to the attitude of women to that society." This is a good idea of one of the great thinkers.

It's no secret that women's roles play a pivotal role in our society in all aspects of the national economy, even in the political process, in the management system. In his speeches and speeches by President Shavkat Mironovitch Mirziyoev, the attention and care of the government to the activities of women in social life is increasingly high.

This issue is particularly important in the five important initiatives of the head of our state, which have put forward a new system of social, spiritual and enlightenment work. Particularly, the Fifth Initiative is dedicated to the issues of employment of women.

Today, the Republican Scientific and Practical Conference on the Role of Women in the Field of Agriculture and Water Management, which is scheduled for May 23-24, will be held at our institute as the execution of the above-mentioned government documents it is worth mentioning.

It should be noted that the scientific and scientific-technical conference was held in accordance with the Decree of the President of the Republic of Uzbekistan of February 7, 2017 "On Strategies for Action in Five Priority Directions for the Development of the Republic of Uzbekistan in 2017-2021" On the introduction of amendments and supplements to certain resolutions by the President of the Republic of Uzbekistan "On measures to radically improve the activities of the Women's Committee in the sphere of women's welfare and strengthening the family institute" of the February 2, 2018 PF-5325 and the Decree of the Cabinet of Ministers of February 25, 2019, № 133-f, and the implementation of the "Year of Active Investments and Social Development" aimed at ensuring women's activism in the implementation of planned tasks.

The spirit of the conference and articles of the conference included the role of women in training engineers and technical staff in agriculture and water management, the conditions for the realization of women's abilities and capacities in the field of education, current issues of women's empowerment and management in the sectors of the economy, the modern challenges of raising women's intellectual capabilities, current issues of girls 'preparation for a healthy lifestyle and family, researchers' and the role of girls. Dear and respected participants and organizers of the scientific conference, keep in mind that only knowledge can illuminate the path of humanity and bring it to great and glorious work. Without the development of science, it is difficult to imagine the development of the country. It is possible to experience innovative inventions, the essence and significance of investing activities. That is why this is the purpose of the International Conferences held every month in different fields of science and education, which is based on the exchange of experience and exchange of experience with foreign experts.

The press secretary of the Institute, Rakhimboy Jumaniyazov
