

## Motherland of every citizen is like a Golden Cradle

We know that every state and every nation in the world can be considered as strong, first of all, by its intellectual potential and high spirituality. Definitely, the source of such invincible power and great invention of human thought, books and libraries. The words said by our President Sh.Mirziyoyev can be equalled to gold.

The number of professors of the Department of Geodesy and Geoinformatics and Land Management of the Faculty " Land Resources Management" participated in the program "The open mini-library and a new way to improve the medical culture" in Yunus Rajabi makhalla of Yakkasaray district of Tashkent city. During the event, the collection of books was presented to the public on behalf of our institute. The veterans of the microdistrict expressed their gratitude to the organizers.
