

## The scope of work carried out under the State Program on Youth Policy

The scope of work carried out under the State Program on Youth Policy. On November 21, 2020, we visited the Tashkent City Complex with the students of the 105th group of the field of study WSES (water supply engineering systems) in order to conduct spiritual activities in the group, to spend their free time meaningfully, and the students received the necessary information.
