

## Meetings with trainees and graduate students

Professors of our Institute, academicians of the Academy of Sciences of the Republic of Uzbekistan M.Mirsaidov and Ph.D., prof. Kulton Sultonov held a meeting with listeners of the Center for retraining and improvement of professional skill of the Tashkent Institute of Architecture and Construction (TACI) on April 22, 2019 and talented students and graduates of TACI.

M. Mirsaidov talked about the great scientific achievements of our esteemed President in science and education from the young people working in higher education institutions, as well as the end of their work with innovation ideas, new technologies and their introduction. He also noted that the President pays great attention to the practical implementation of the achievements of the science, as a result of which the election of the Academy of Sciences of the Republic of Uzbekistan and 32 academicians were elected.

M.Mirsaidov noted that there is sufficient potential in this institute to solve actual problems of our future in the future, and that there are a number of scientific schools in other areas of construction, and this institute should cooperate with the Academy of Sciences of the Republic of Uzbekistan and other higher educational institutions of our Republic. said that it is necessary to develop integration between the regions. In addition, the professors and teachers of the Tashkent Institute of International Relations (TIAME) are conducting a high level of research in the same area, for example, the 12th International Conference in Tashkent, and the Institute's staff members actively participated in this conference, tdi

Prof. K.Sultanov, in his speech, highlighted the current problems in the field of construction and said that young people would be able to achieve good scientific results in the future. Participants of the meeting asked many questions M.Mirsaidov and K.Sultonov, and received full answers to all the questions. M.Mirsaidov and K.S Sultonov supported the work carried out in TACI and gave their valuable advice, wished them success in the future.
