

## Discussion of address of the President

✘ In all organizations, departments and institutions of the republic, the discussion of the address of the President Shavkat Mirziyoev to the Oliy Majlis of the Republic of Uzbekistan started the process of discussion and making conclusions in each area. Students of our institute did not hesitate to review and comment on recorded speeches. We were delighted that most of the students at the Information Resource Center regularly came to the press room and shared their comments while listening to the address of the President. They were particularly indifferent to the President's remarks, as "I am always ready to support professional journalists in their honest reporting of problems and shortcomings in the field."; "Where do we get the vaccine of honesty"; "Let the deputies and senators diligently study the issue"; "We will develop a Poverty Reduction Program in Uzbekistan", "During 30 years we have been putting handcuffs to the feet of our citizens on registration issues"; "One million programmers would be big drivers"; "State grants in universities will be doubled"; "Wages will rise above inflation"; "We cannot develop if we do not have a market to sell the products which we produced". We will continue to promote the tasks and objectives set out in the address.
