

## "Last Bell" events were held in the schools attached to the institute

Today the last bell rang in secondary schools across the country. As a result, about 438,000 students across the country are now receiving their high school diplomas.

Under the guidance of U.P. Umurzakov, Rector of TIIAME, the Institute team visited Mirzo-Ulugbek District. They took part in events held in schools 64, 50, and 18 humanities schools attached to the institute. As part of the cooperation between the Institute and the school, graduates of secondary schools are entering a new, more responsible stage of their lives.
