

The importance of harmony in education and upbringing in the national development.

It is interesting to note on September 24, the chairman of the women's council of " Organization and Management of Water Resources" Faculty of the Institute Rano Kodirova, held a spiritual and educational event on the topic "Higher education of girls - education of the nation." The event was attended by female students and teachers. One of the special guests of the event was Honored Worker of Culture of Uzbekistan, Honored Worker of Public Education, laureate of the Medal of Glory, the Order of Labor Glory-Umida Abduazimova.

In her speech Rano Kodirova mentioned about the upbringing of girls, which was considered by our ancestors in ancient times as one of the most important issues. It was informed that with our appearance we should be a model of behavior. For happiness, each girl, in addition to beauty, needs intelligence, modesty, good education and impressive manners. Speaking about the fact that the girl is the flag of the family, the floor was given to the guest of the event, the poet Umida Abduazimova. Our students also read poems from the works of our poet, danced to the poems that turned our poet into a song. The event was very informative and useful, which was followed with lively questions and answers.
