

Transformation processes in commercial banks of the Republic of Uzbekistan

On October 23, 2021, was held a regular seminar at the "Center for Scientific and Innovative Research" of JSCB Turonbank, established by the Faculty of "Organization and Management of Water Resources" of the Tashkent Institute of Irrigation and Agricultural Mechanization Engineers. The Deputy Director of the Retail Services Department of JSCB Turonbank Vakhobov Eldor Bakhtiyor ogli attended the seminar.

It is true that during the years of independence, the Republic of Uzbekistan was the first among the CIS countries to establish its own payment system, the process of introduction of plastics, and today the banking system of Uzbekistan is being transferred to international standards. The information in the workshop aroused great interest among the seminar participants. The seminar was full of questions and answers.
