

Visit in the Khumo Arena

✘ On November 22, the students of the 1st course group 109 "Innovative technologies in water management and their use" together with the trainer B.T.Amanov visited the Khumo arena.

"KHUMO ARENA" is a modern ice palace built in accordance with all the requirements of the world.

The infrastructure of the ice complex consists of a 12,500-seat and large ice arena with a spectacular ice arena for spectators, a press center for guests, a conference hall, a sports store, a fitness and entertainment area for children. The new multifunctional ice complex is an exclusive project for Uzbekistan and named the best sports and cultural center of the great city. The students realized that the profound knowledge of science during their journey would be a significant contribution to their future and the country's development.
