

The threshold of a new Uzbekistan begins at school

Based on the issues raised at the meeting chaired by President Islam Karimov on October 30 this year, the memorandum signed with the Department of Public Education of M. Ulugbek district, approved by the rector of TIIAME, A ROAD MAP has been developed to establish cooperation with educational schools. In this regard, professors of the Department of "Higher Mathematics" visited the 18th school (Russian school) in the district and organized classes for senior students in mathematics. In addition to the lessons, there was a brief information about our institute and its conditions. Students were also informed that such classes will continue until the end of the 2020/2021 academic year.
